

ACT AC Transformer

Designed to provide low AC voltage and withstand harsh conditions

Phason's AC Transformer (ACT) is a CSA-approved, Class 2 power supply.

The ACT is designed to provide low AC voltage to devices such as alarms systems and actuators. The rugged enclosure is able to withstand harsh conditions.

The ACT supplies 24 VAC power. If you need DC and AC power, Phason has a power supply called the Regulated Power Supply (RPS) that supplies 13.6 VDC and 24 VAC.

Features

- ◆ CSA approved
- ◆ Class 2 power supply
- ◆ Rugged enclosure
- ◆ Easy installation
- ◆ Maintenance-free
- ◆ 90-day limited warranty

Electrical ratings

- ◆ Input
 - ◆ 115/230 VAC
 - ◆ 50 VA
 - ◆ 50/60 Hz
- ◆ Output
 - ◆ 24 VAC
 - ◆ 15 W maximum
- ◆ Fuse
 - ◆ 1 A, 250 V, fast-acting glass
