

# OWS OMNI Weather Station

A rugged, low-maintenance unit for monitoring outdoor environmental conditions

Phason's OMNI-Weather Station (OWS) is part of the OMNI-4000 family of products.

The OWS works with OMNI-Weather to monitor outdoor environmental conditions.

The OWS hardware consists of the sensors (wind speed, wind direction, temperature, and humidity) and the control unit. Optional accessories include the Phason Rain Gauge (PRG).

## Features

- ◆ Easy installation
- ◆ Low-maintenance design
- ◆ Durable and rugged sensors
- ◆ Rugged enclosure
- ◆ Two-year limited warranty

## Electrical ratings

- ◆ 10 to 14 VDC
- ◆ 100 mA

NOTE: One Phason Regulated Power Supply (RPS) can supply power for up to 11 OWs.

## Other requirements and information

- ◆ OMNI-4000 system and OMNI-Weather module
- ◆ Communication cable: unshielded twisted pair (UTP), category 3 or higher
- ◆ For more information about the OMNI Weather Station, available accessories, or other Phason products, contact your dealer or visit [www.phason.ca](http://www.phason.ca).
