

PLC Saver

A quick and easy way to store or transfer your PLC configuration and lighting programs

The PLC Saver is an innovative and easy-to-use product that allows you to store your Programmable Lighting Control's configuration and lighting programs.

The PLC Saver stores a complete copy of all a PLC's configuration and lighting programs. You can even transfer the information to other PLCs or set up a new PLC in seconds!

The PLC Saver works with all models of Phason Programmable Lighting Controls.

Features

- ◆ Quick and easy to use
- ◆ Portable, reliable, and safe storage
- ◆ Transferable to other PLCs
- ◆ 90-day limited warranty

Benefits

- ◆ Makes storing or transferring settings easier
