

# SupraSaver

A quick and easy way to store or transfer your  
Supra configuration and settings

Phason's SupraSaver is an innovative and easy-to-use product that allows you to store your Supra configuration and settings.

The SupraSaver stores a complete copy of all your Supra's configuration and settings. You can even transfer them to other Supras or set up a new Supra in seconds!

This technology is unmatched in the industry today and is available only in Phason's Supra family of products.

## Features

- ◆ Quick and easy to use—takes only seconds!
- ◆ Portable, reliable, and safe storage
- ◆ Transferable to other Supras (with the same firmware version)
- ◆ 90-day limited warranty

## Benefits

- ◆ Makes storing or transferring settings easier
- ◆ Makes configuring new Supras easier
- ◆ Saves time

## Other requirements and information
